

NADAVAPALLI VENKATA PAVAN SAI SRI LAKSHMAN

Software Development Engineer | Backend & Full Stack

☎ +91-9346716905 ✉ 2200030245cseh@gmail.com [in LinkedIn](#) [GitHub](#)

Summary

Software Engineer with strong foundations in Data Structures, Algorithms, and object-oriented design. Experienced in building backend and full-stack applications using Java, Spring Boot, and MERN stack. Skilled in designing REST APIs, optimizing database queries, and developing reliable applications. Strong problem-solving skills with consistent practice in data structures and algorithms.

Education

B.Tech in Computer Science and Engineering	2022 – 2026
K.L. University, Vijayawada	CGPA: 9.2/10

Technical Skills

- **Languages:** Java, SQL, JavaScript
- **Backend:** Spring Boot, Node.js, REST APIs
- **Frontend:** React.js, HTML, CSS
- **Databases:** MySQL, MongoDB
- **Core CS:** Data Structures, Algorithms, OOP, DBMS, OS Basics
- **Cloud & Tools:** AWS, Git, GitHub, Postman
- **Problem Solving:** Solved 200+ DSA problems on coding platforms

Experience

AICTE AWS Data Engineer Virtual Internship	Jan 2024 – Mar 2024
---	---------------------

- Worked on ETL workflows and SQL queries for efficient data processing using AWS
- Gained hands-on experience with cloud-based data systems and backend data handling
- Improved understanding of scalable data systems and real-world data workflows

Open Source Contributor	2024 – Present
--------------------------------	----------------

- Collaborated on GitHub projects using version control and development workflows
- Participated in debugging and improving code quality in collaborative environments

Projects

CyberShield AI – Real-Time Threat Detection Platform

- Built backend using Java Spring Boot to process real-time security data and detect anomalies
- Designed REST APIs and optimized MongoDB queries for faster data retrieval
- Improved system performance by optimizing database operations and API response time

Smart Hire – Full Stack Recruitment Platform

- Developed full-stack application using MERN stack for job matching and recruitment workflows
- Implemented authentication and REST APIs for user and job management
- Optimized database queries to handle multiple users efficiently

Certifications

- [Red Hat Certified Enterprise Application Developer](#)
- [AWS Certified Cloud Practitioner](#)
- [Salesforce Certified AI Associate](#)
- Wipro TalentNext Java Full Stack Program
